Annual Progress Report for Doctoral Students and Funded Master Students

This report must be completed annually at the end of the spring semester by all IMSE Ph.D. students and all funded Master students.

This report serves several purposes. Most importantly, it is used by you and your advisor(s) to formally review progress towards completing your degree. This report is also submitted to the Department Head for the primary purpose of determining GRA and GTA positions for the upcoming year. Annual reports will be maintained by the IMSE Office as part of your academic record.

This report focuses on your professional development. The primary areas are research and courses taken. Information related to teaching assignments and professional service should also be supplied, but they are not a primary component of this report.

You are encouraged to work closely with your advisor(s) when drafting the report.

Submit a hard copy of your completed report to the Department Head with your advisor’s signature on or before May 15.
